FREE

Flu shots are available starting October 15th.

Patient must complete their Health and Wellness Physical to receive the flu shot.

Who should get the vaccine?

Everyone 6 months of age and older should get the flu vaccine. Seasonal flu vaccines have a very good safety track record. It is especially important to get the vaccine if you, someone you live with, or someone you care for is at high risk of complications from the flu.

Can I get the flu from the vaccine?

No, you can't get the flu from the flu vaccine. The flu vaccine protects you from the flu, not the common cold. (But you may experience some side effects. Mild reactions, such as soreness, headaches, and fever are common side effects of the flu vaccine.)

When should I get the vaccine?

Get your flu shot today, flu season usually peaks in January or February, but it can occur as late as May. Early immunization is the most effective.
